^bIn clinical studies, some patients experienced swelling and bruising; these events resolved within 7 to 10 days and could be covered up with makeup.¹

What you can expect

Before

You'll meet with your healthcare provider to discuss your treatment goals.

During

The Profound treatment delivers pulses of energy to the targeted areas. Your healthcare provider may apply a local anesthetic beforehand.

After

Some swelling and bruising may occur and in clinical studies have been shown to typically resolve in 5 to 10 days, depending on treatment area and anesthesia protocol.²

Patients can typically return to their normal activities within 24 hours of treatment.

Ask us how you can benefit from the Profound treatment

GET THE SMOOTH SKIN YOU WANT,

NATURALLY

The Profound® treatment—reduce the signs of aging^{1,2} naturally

Profound®

Renew your appearance

It happens to everyone. As we age our collagen levels decrease, elastin production stops, and hyaluronic acid diminishes.³ These three (3) skin fundamentals are important in keeping our skin strong, elastic, and flexible. When their levels drop, facial wrinkles may appear.⁴⁻⁷

So it's no surprise that you are starting to see signs of wrinkles and feeling less confident. But you can do something about it.

The Profound treatment is a single, nonsurgical solution that reduces facial wrinkles and rejuvenates your skin^{1,2,a}

Profound®

Lasting results you'll want

The Profound treatment delivers a precise time and temperature combination to skin and uses your body's natural healing process to create new elastin, collagen, and hyaluronic acid. It stimulates your body to naturally revitalize and smooth the skin's appearance.^{1,2,8-10}
